

Geography

Create a poster about one of the four countries in the UK.

- Where is it?
- What landmarks are there?
- What human/physical features can you see there?
- What languages are spoken there?
- How is it different to Aylesbury?
- Why should we visit there?

Learning for Life

Think about Respect and mind map your ideas and answers to the following questions.

- What is respect?
- How do we show respect at OVPA?
- How do we show respect outside of our Academy?

Write a detailed description of how you would show someone respect.

Science

Using your knowledge of animals, plan and present a project about one animal.

Think about:

- What diet do they have?
- What is their habitat?
- What type of animal are they? (reptile, mammal etc)
- Their lifecycle

PE

Create a new team game for our class to try.

- It needs to improve teamwork and cooperation skills and use your PE knowledge.
- It will need clear rules (that you have recorded!) and you will need to consider any equipment you may need.

You could work independently or in a group.

Year 2 Autumn Term Project Grid

ORCHARD VIEW
PRIMARY ACADEMY

Together we learn, together we succeed!

Art

Research Anthony Goldsworthy and his artwork.

- What makes his work unique?
- How would you describe his art?
- What materials does he use?
- Do you like this style of work? Why?

Create a collaged piece of art that is in the style of Goldsworthy.

You could use natural materials from outside just like he does!

Writing

Choose your favourite book character and write a diary entry as them.

Think about:

- What might they do during a normal day?
- Who might they see?
- What would they eat?
- How would they be feeling?
- Where might they go?

Computing

Think about this question:

How can we stay safe when using computers?

Create a presentation to answer the question.

Make sure to:

- Make suggestions about how to stay safe
- Explain why it is important
- List some things that are not safe
- Make it exciting and colourful

DT

Create a shoebox habitat for an animal or minibeast of your choosing. Think about:

- What plants and physical features there would be.
- What the climate would be like.
- What food would need to be in their habitat.

PARTNERSHIP

RESPECT

INTEGRITY
